Associate Member of the Department of Physics (D-PHYS), ETH Zurich

Associate Member of the Department of Earth Sciences (D-ERDW), ETH Zurich

To Whom It May Concern

It is my pleasure to recommend Dr. Jean-Yves Henry to your attention. I have collaborated with Dr. Henry for over a decade, and can testify on the quality and validity of his theoretical model, and on the rigor of his analytical approach, which provide a remarkable "system science" approach to medical treatments.

Sincerely,

Somette

Didier Sornette

Professor of Entrepreneurial Risks at ETH Zurich (Swiss Federal Institute of Technology of Zurich) Professor of Physics and of Geophysics at ETH Zurich Professor of Finance at the Swiss Finance Institute Honorary Professor of East China University of Science and Technology, Shanghai, China (2009-present) Specially appointed professor of Tokyo Institute of Technology (2016-present)

Zurich, November 23, 2016
